Love and Logic Parenting

Would you like to feel more confident as a parent?

Would you like to have more fun parenting?

Would you like to feel more relaxed at the end of the day?

Love and Logic for parents puts an end to:

- Back talk
- Bedtime battles
- Hassles over chores

And parents get:

- Words that work right off the tip of your tongue
- Less stress and more confidence
- Respectful and responsible kids

Who can benefit from Love and Logic?

It's never too late for parents to begin using the Love and Logic techniques regardless of whether the family has a teenager or a toddler. No matter the age of the child, the best time to start Love and Logic is now!

This practical and straightforward philosophy was created by Jim Fay and Foster Cline, M.D. and backed with over 30 years of experience. Parents can apply it immediately to a wide range of situations.

How & Why Love and Logic Parenting Works:

- Uses humor, hope, and empathy to build up the adult/child relationship
- Emphasizes respect and dignity for both children and adults
- Provides real limits in a loving way
